PROFESSIONAL SUMMARY

Results-driven Frontend & Mobile Developer with 3+ years of experience delivering production-ready web and mobile apps across FinTech, HealthTech, and SaaS. Specialized in building responsive UIs, optimizing performance, and integrating complex APIs. Adept at leading frontend projects under startup conditions and collaborating with product and backend teams to meet business goals. Passionate about scalable architecture, design systems, and shipping polished user experiences. Seeking to apply proven problem-solving skills and technical leadership to help forward-thinking teams build products that users love.

SKILLS

Frontend: React.js, TypeScript, Next.js, Redux Toolkit, React Query, HTML5, CSS3, Tailwind CSS, Bootstrap, Webpack, Cross-Browser Compatibility, Accessibility (WCAG)
Mobile: Expo React Native, Expo SQLite
UI/UX & Performance: Responsive Design, Design Systems, Accessibility (WCAG), Cross-Browser Compatibility, Performance Optimization
Dev Tools & APIs: Git, VS Code, Stripe, JWT, RESTful APIs, WebSocket, Postman
Development Practices: TDD, CI/CD, Agile/Scrum, Collaborative Remote Development

PROFESSIONAL EXPERIENCE

Frontend Engineer
Promax IT Solutions - Remote (Jan 2023 - Present)
- Spearheaded frontend architecture for Promax Care (web + mobile), an HR management system for NDIS care workers in Australia.
- Migrated legacy code from CRA to Vite, improving load time and developer experience.
- Built Promax Care Mobile App (Expo React Native), implementing geofencing, document upload, shift tracking, and reporting.
- Developed AfrimedTech platform (Next.js) to connect doctors and patients.
- Contributed to Census Remit platform using React + Zustand.
- Delivered reusable components and design system improvements.

Frontend Engineer
Greall Technologies / Peabux Limited - Remote (Nov 2022 - May 2025)
- Developed Greall Socials platform (React) for digital social engagement services.
- Built the company site with Next.js; reduced load time by 70%.
- Designed and maintained Greall Mobile Auction App (Expo React Native).
- Led frontend team during startup pivots.
- Built Peabux Wallet prototype for bill payments.

Frontend Developer Intern
HNG Internship - Remote (July - August 2024)
- Built an e-commerce mobile app with Expo + SQLite and Paystack.
- Contributed to NFC library development.
- Completed all 10 stages, recognized as a finalist.
